### Violation Decision

The respondent has been charged with violating Traffic Rule 4-08(j)(6) by standing or parking a vehicle bearing New York plates that did not display a current inspection sticker or certificate in accordance with section 306(b) of the NYS Vehicle and Traffic Law.

Respondent admits that their inspection sticker was expired but claims this summons should be dismissed because they received other summonses for this same status violation. Respondent's claim is not valid legal defense to the summons. According to city records, Respondent received seven other summonses for this violation but all such summonses were issued on different dates and not on the same date as required for dismissal of a status violation as a repeat summons. A summons for a status violation can be issued each and every day that the vehicle is not in compliance with law. Vehicles without valid inspection stickers must be removed from the street.

I hereby certify that the matter recorded above reflects a hearing conducted by the undersigned Administrative Law Judge (ALJ) on proof submitted by the Respondent and the City of New York, and that said determination was made by me based on that hearing.
